

Draft Agenda
COST Action 715
'Meteorology Applied to Urban Air Pollution Problems'

Working Group 3
'Meteorology during Peak Pollution Episodes'

16 - 17 October 2002, Sofia, Bulgaria

1. Welcome of new participants
2. Adoption of agenda
3. Adoption of minutes and decisions of previous WG meeting
4. Publishing of the Toulouse WS extended abstracts, and the possible extension of these papers to journal articles
5. The status of the papers “Structured analysis and evaluation of PM₁₀ episodes” and “Structured analysis and evaluation of NO₂ episodes”
6. The possible updating of the Status Report
7. The status of FUMAPEX and other related projects (such as those in “Air Quality Cluster”), and EU 6th Framework Programme
8. Work plan until next WG meeting, including preparation of joint peer-reviewed and other publications, and preparation of the final report of COST 715
9. The www pages of the WG, including the updating of contact information
10. Short term scientific missions, study contracts, invited experts
11. Report on symposia related to the topics of WG (e.g., Urban Air Quality 4, ITM)
12. Date and place of next meeting
13. Any other business
